STRAIN TALK

XJ-13

Sativa/Indica

THC25.07% / CBD 0.39 %

XJ-13 is a hybrid of G-13 and Jack Herer. Plants have the potential to grow moderately tall, and will yield thick buds with a sativa structure. The finished product smells like a pine forest, and the flavor is fresh and smooth like citrus. The effect is exceedingly potent, and affects both head and body. Patients can expect to feel clear, creative and social. They will also find they feel very relaxed and comfortable, making this strain the best of both worlds.

TIP OF THE MONTH
KNOW THE LAW

OUT-OF-STATE RECOMMENDATIONS

Out-of-state recommendations are not recognized in California, though they are in Montana, Rhode Island and Michigan. While Prop. 215 arguably applies to anyone with a recommendation from a California physician, most physicians refuse to recommend to out-of-staters and most dispensaries refuse to honor non-California residents.

CULTIVATING WISDOM™

301 East Todd Road, Santa Rosa
1295 University Avenue, San Diego

We offer a large selection of the cleanest and most sustainable cultivation products available.

FREE Seminars offered 3rd Saturday of Every Month from 11am-1pm at our Santa Rosa location.

August CULTIVATING TIP

Get rid of pests and disease before it's too late! Treat with a neem oil solution or Azomat. Avoid spraying during flowering.

GORILLA GROW

Advancing Grow Technologies Through "The Powerful Science of NatureSM"

GORILLA GROW™ and DINO GROW™ are key components of the ecosystem that are rarely seen; yet have played a major roll in defining the health of our soils throughout the history of our planet. Based on science as old as the ecosystem itself, these two components when combined together help create what we call LMSR™.
