**Urge your representative to co-sponsor HR1983**

Recently, the medical marijuana community has sustained numerous attacks on our state-bestowed right to consume cannabis as medicine. Dispensaries have been threatened with, and have endured raids in several states, including here in California. Fortunately, there is a step we can all take to correct this situation. Supporters of this cause in Congress have proposed HR1983, the States' Medical Cannabis Patient Protection Act. By reclassifying cannabis as a Schedule III under the Controlled Substance Act, this legislation would allow states to operate their medical marijuana programs safely and without federal interference.

*Please do your part and contact Representative Lynn Woolsey at her Sonoma County office and urge her to cosponsor HR1983!*

**CULTIVATING WISDOM™**

301 East Todd Road, Santa Rosa  
 1295 University Avenue, San Diego

We offer a large selection of the cleanest and most sustainable cultivation products available.

**November CULTIVATING TIP**

## Proper Curing & Storage

Once your harvest is dry, store in glass mason jars and open the jars daily for up to 2 weeks. After 2 weeks, open the jars once a week. This process will bring out the full potential of aroma and flavors of your medicine. Keep the buds in a cool, dark place. Improper storage will result in lower THC.

**FREE Cultivating Seminars offered 3rd Saturday of Every Month from 11am-1pm at our Santa Rosa location.**
