STRAIN TALK

Local Outdoor Harvest

For medical marijuana patients in Northern California, the outdoor harvest has just begun, and it promises to be a bountiful one! The air is filled with the aroma of sweet, sour and skunky flowers of all varieties. Sonoma County has an unusually large community of growers, who are able to communicate and learn from each other. Therefore, the outdoor product that originates in this and surrounding areas is of superior quality. Each year, more and more patients and caregivers cultivate their own medicine, and Organicann is in the heart of cannabis country. Our patients can look forward to an extensive array of potent and delicious cannabis, at exceptional outdoor prices on our shelves throughout the season!

RECIPE OF THE MONTH

**Baked CannaApple
Doughnut Holes**

Ingredients:

- 1/4 cup brown sugar
- 1/4 cup white sugar
- 1 1/2 cups flour
- 1 3/4 teaspoon baking powder
- 1 teaspoon nutmeg
- 1/3 cup cold Organicann CannaButter, cut into pieces
- 1 egg
- 1/4 cup milk
- 1 1/2 cups bite sized pieces of apple, peeled and cored

Coating:

- 1/4 cup Organicann CannaButter, melted
- 1/3 cup sugar
- 1 teaspoon cinnamon

Directions:

Preheat oven to 350 degrees. In a medium sized mixing bowl, whisk together sugars, flour, baking powder, and nutmeg. Using a fork or pasty blender, cut in to the cold Organicann CannaButter until the mixture resembles coarse crumbs. In a separate bowl, beat together the egg and milk. Fold in the chopped apples. Add the egg mixture to the dry ingredients. Stir until mixture is well combined. Place a spoonful of batter into each mold of a buttered mini muffin pan. Bake for 15-18 minutes or until the doughnuts are golden brown. Remove from the oven and allow to cool for five minutes.

Gently remove doughnuts from the molds and lightly brush each doughnut with melted Organicann CannaButter. Coat with cinnamon and sugar. Serve immediately.

October CULTIVATING TIP

Save your scraps!

Let no part of your plant go to waste! Cannabis plants are unique in that every section is useful. Trim and leaf can be utilized in producing kief, hash and edibles. Even stems can be combined with trim and alcohol to make powerful concentrated tinctures. Want to learn more? Patients can find helpful details in books that we carry at any OrganiCann location.

FREE Cultivating Seminars offered 3rd Saturday of Every Month from 11am-1pm at our Santa Rosa location.

GORILLA GROW

Advancing Grow Technologies Through
"The Powerful Science of NatureSM"

GORILLA GROW™ and DINO GROW™ are key components of the ecosystem that are rarely seen; yet have played a major roll in defining the health of our soils throughout the history of our planet. Based on science as old as the ecosystem itself, these two components when combined together help create what we call LMSR™.

KNOW THE LAW

DRIVING WITH MEDICINE

Patients and caregivers are legally allowed to transport medical marijuana in California. However, this does not stop law enforcement from harassing patients on a regular basis. Remember these tips when driving with your medicine:

- **Stay within the county limits** (if traveling outside of Sonoma County, stay within the California Default Limits):
 - Sonoma County: 3lbs dry cannabis
 - CA State Default Limit: 1/2lb dry cannabis
- **Keep your medicine locked in your trunk**

If you do have a law enforcement encounter... remember these things:

- **You have the right to remain silent.**
- **You have the right to refuse a search.**
- **If your medicine is found, provide the officer with your doctor's recommendation or California MMJ ID card.** (these are the documents that legally protect you)

If you have a law enforcement encounter (good, bad or neutral), contact **American's for Safe Access** about your experience or for legal support.
