STRAIN TALK

Cheeziel

Sativa Dominant

(Cheese X Sour Diesel)

This variety is grown in Sonoma County by one of the cleanest and most consistent West Coast cultivators. The taste is *extra* sour and the smooth, velvety smoke lingers with “cheesy” undertones. Effects of Cheeziel are uplifting and giggly. This strain will leave you with a clear, focused mind, and a body free of discomfort. Cheeziel has already gained popularity here at OrganiCann for its smell, taste, effects, and potency. Analytically tested this strain scored 23.33% THC content!

Introducing the OrganiCann e-Joint

The OrganiCann e-Joint (electronic joint) is a revolutionary smoking device that medicates just like a real joint. Available exclusively at OrganiCann, the e-Joint utilizes cutting edge atomization technology to deliver THC in a cool cloud of sweet, hashish-flavored vapor. There is no smoke, no ash, and no odor. It's gentle on your throat and lungs. And because it looks similar to a cigarette, it can be used in situations where traditional means of medicating are not practical or permitted. Stop by OrganiCann and check out the future of safe, clean medicine.

TIP OF THE MONTH:

Be A Good Neighbor!

A COMMON CAUSE OF TROUBLE FOR BOTH PATIENTS AND CAREGIVERS IS COMPLAINTS BY NEIGHBORS.

This problem may manifest itself in the form of: an unpleasant personal confrontation or neighbors reporting concerns about odor and safety to the police. Subsequent investigations have led to the arrest of patients and caregivers and to the closure of medical marijuana dispensing collectives.

Neighbors and nearby businesses may or may not share your opinion about medical marijuana, but they will be much more likely to respect your right to safe medicine if you are not creating any harm or annoyance for them. By being conscious of neighbors' rights, privacy and property, patients and dispensing collectives can establish and maintain harmonious relationships.

Domestic disputes, loud music, parties, illegal parking, barking dogs, and other nuisances could cause neighbors to call the police. Police are required to investigate these reports, and they will come to your location. This can lead to citations or criminal charges for nuisance violations and also to further investigations that may detect your medical marijuana use. Being a good neighbor can help you avoid these encounters.
